TradeGlobal to Exhibit at 2017 Internet Retailer Conference & Exhibition

Leading global end-to-end eCommerce provider to showcase cross-border and omnichannel technology solutions at annual retail conference

CINCINNATI, June 1, 2017 – TradeGlobal, a subsidiary of Singapore Post Limited and the leading provider of global end-to-end eCommerce solutions, is co-exhibiting alongside its sister company and fellow eCommerce solutions provider, Jagged Peak, at the 13th annual Internet Retailer Conference & Exhibition (IRCE), which takes place June 6 through 9 at McCormick Place West in Chicago.

The largest and most well-known eCommerce trade show, IRCE brings together experts, solution providers and retail professionals seeking the latest strategies and trends taking shape in the eCommerce industry. This year's event provides an estimated 10,000 attendees with access to more than 200 speakers, 130 conference sessions and an exhibit hall filled with nearly 600 solution providers.

TradeGlobal offers a full suite of innovative eCommerce solutions and a scalable infrastructure that enable brands and retailers to streamline their operations, deliver personalized customer experiences and maximize their growth potential. TradeGlobal and Jagged Peak leverage their synergies to tailor eCommerce solutions that meet the unique needs of businesses on a global scale.

IRCE attendees are invited to visit TradeGlobal and Jagged Peak at booth 900 in order to receive:

- A demo of TG Commerce, a cross-border solution that enables seamless international shopping and shipping from anywhere to anywhere.
- A demo of the EDGE platform, a cloud-based distributed order management solution that enables omnichannel retailing and manages the entire order lifecycle.
- An overview of their end-to-end eCommerce offering, which includes website strategy and implementation, eCommerce technology, fulfillment and logistics, digital marketing, marketplace management and customer care.
- A chance to win a stylish Power Logo Laptop Bag from Calvin Klein.
